FOR THE PUBLIC TO DECIDE. NAN it be expected that Merchants and Druggists, who lend themselves to palm off upon the public their base imitations and counterfeit medicines, in preference to the genuine, merely because they can make more per cent on them, would deal honestly in selling other articles? We think not. Persons that deal out counterfeit medicines, and thus encourage counterfeiters, even at the expense of the health and life of their customers and neighbors, are they honest or honorable

men? No. And they should be avoided.
